North Cikarang, Indonesia | +(62) 8989-444-349

contact@resqiar.com | resqiar.com | github.com/resqiar | wakatime.com/@resqiar

I am a Software Engineer from the beautiful country of Indonesia 🇮🇩. I specialize in building web and server environments. My favorite tool for servers is **Go**, for UI is **Svelte**. However, I am not limited to them, I can adapt quickly and eager to learn more. Let's explore and get to know me better!

Why I might be worth considering:

- I have **100+** repositories on Github
- I have B+ score with total commits of **3.4K** on Github
- I have **1580+** recorded coding hours in Wakatime
- I use Linux & Vim daily

EXPERIENCE

Backend Engineer Trainee

Sagara Technology

Jul 2023 - Nov 2023

Open Source Enthusiast

Open Source Community

<https://github.com/resqiar>

Jan 2021 - Present

EDUCATION

Bachelor of Technology (B.Tech.) - Computer Science

(Expected)

President University

Jul 2021 - Dec 2024

SKILLS

Expert in: Back-end, NodeJS , Svelte, NestJS, Go:Fiber

Intermediate in: Front-end, React, Database(s), Go, Linux

Basic in: Rust

LICENSES & CERTIFICATIONS

Certifications of Completion Android Developer Class

Dicoding Academy

2020

HONORS & AWARDS

3rd Grade National Web Programming Competition

University of Muhammadiyah Semarang

2019

PROJECTS

Resqiar.com

github.com/resqiar/resqiar.com

A personal website of mine that I developed for projects showcases, blogs, courses, community sharing, and more.

Api.resqiar.com (Golang Server)

github.com/resqiar/api.resqiar.com

Supportive server for resqiar.com web-app built using GoFiber

Algorithm Visualizer

resqiar.github.io/algo-visualization

Visualize infamous many algorithms for showcase and learning purpose.

Binder (Binder Extension Project)

github.com/resqiar/binder

My personal binder extensions. Used to store additional data to organize my binder books.

AI Anime Recommender

github.com/resqiar/anime-recommender

Using collaborative filtering to get the similarity score recommendation between users.

Reslang (Building my Own Programming Language)

github.com/resqiar/reslang

Isn't it fun building your own programming language? — in learning process tho, so the code will be horrible, brace yourself
